CENTEL

Bloomberg CENTEL TB Reuters CENTEL.BK

1Q22: Below estimates on weaker hotels

CENTEL reported a 1Q22 net loss of Bt44mn, better YoY but sinking from a net profit of Bt152mn in 4Q21. The miss to SCBS (net profit of Bt83mn) and market (net profit of Bt143mn) estimates was due to a weaker hotel business brought by higher tax expenses. We expect 2Q22 core earnings to improve YoY in tandem with Thai tourism recovery that will drive the hotel business and off the low base for the food business in 2Q-3Q21 (restrictions to control the third wave of COVID-19) but to soften QoQ on seasonality. We are Neutral on CENTEL from limited upside to our end-2023 TP of Bt38/share (based on SOTP valuation).

1Q22: Below estimates. CENTEL reported a 1Q22 net loss of Bt44mn, better YoY but turning from a net profit of Bt152mn in 4Q21, missing SCBS (Bt83mn) and market (Bt143mn) estimates due to a weaker hotel business.

1Q22 highlights

- Hotel business (+YoY, -QoQ). As shown in Figure 2, its hotel business reported a loss of Bt149mn in 1Q22, better than the net loss of Bt500mn in 1Q21 but worse than the net loss of Bt32mn in 4Q21, dragged down by higher tax expense (from tax income in 4Q21). However, a look at operations shows strong RevPar (+150% YoY and +12% QoQ), driven by hotels in Maldives that ran at an 86% occupancy rate in 1Q22 (up from 76% in 1Q21 and 81% in 4Q21), beating hotels in Bangkok at 31% and in the provinces at 24%.
- Food business (+YoY, -QoQ). The food business contributed profit of Bt105mn in 1Q22, surging from Bt25mn in 1Q21 but down 43% QoQ. The YoY earnings improvement was backed by SSS at 10% (vs. -23% in 1Q21, hit by the second wave of COVID-19 and -2% in 4Q21) while the QoQ earnings drop was due to a lower EBITDA margin (from rising food cost) and higher depreciation and amortization expenses off the low base in 4Q21 due to rights-of-use asset adjustment.

Earnings outlook. We expect 2Q22 core earnings to improve YoY in tandem with the recovery of Thai tourism that will fuel the hotel business and off the low base for the food business in 2Q-3Q21 when the government enacted restrictions to control the third wave of COVID-19, but to soften QoQ on seasonality. Upside is better Thai tourism, economy and consumer spending. Risks are uncontrollable events, e.g., a resurgence of COVID-19 with a new virus variant, an economic slowdown that could hurt travel demand and intense competition in the hotel industry after COVID-19 eases.
