1Q22: Down both YoY and QoQ

SIRI's 1Q22 earnings plunged YoY and QoQ to Bt303, an eight-quarter low on lower revenue and higher expenses that overwhelmed the extra gain on sale of land. We maintain our 2022 forecast and expect QoQ growth in 2Q22F but a slip YoY. Downside to our forecast would be delays in new launches and higher cost of debt given its high leverage. We will revisit our call and forecast in early 3Q22. Our end-2022 TP is Bt1.42/sh.

1Q22 earnings down YoY and QoQ. 1Q22 net profit was Bt303mn (-21.2% YoY and -11% QoQ), pulled down by lower revenue and higher expenses. Revenue was Bt4.9bn (-26.2% YoY and -30.3% QoQ), 53.5% from SDH, 10.9% from TH, 15.6% from mixed products and 20% from condos. It booked an extra gain of Bt117mn from the sale of land around Krung Thep Kritha to its JV with Tokyu Corporation (70:30) for a project branded under *Burasiri*. Average gross margin was 31.6% with a real estate gross margin of 35% that was pulled down by lower margins at other businesses. Interest expenses rose 6% YoY and 12.3% QoQ from high leverage with DE ratio at 1.9x. Contribution from the JV was Bt14mn, down QoQ from less backlog recognition. 1Q22 earnings accounted for 11% of our 2022 net profit forecast of Bt2.74bn (+36% YoY).

Maintain our 2022F. Current backlog is Bt18.5bn, with 65% to be booked as revenue in 2022, 29% in 2023, and 6% in 2024. We maintain our 2022F net profit at Bt2.74bn (+36% YoY) on revenue of Bt31bn (+8% YoY), 55% secured. Contribution from the JV is expected to improve in 2022, backed by current JV backlog of Bt1.1bn. In line with the recognition of backlog, we expect 2Q22 earnings to go up QoQ but drop YoY; 2H22 earnings will account for 60-65% of our 2022 forecast.

Risks and concerns. For external factors, we are monitoring the possible increase in minimum wage, which would pressure total gross margin and lead to a 3-5% increase in selling price. As for internal factors, in view of the huge 654% YoY growth in new launches to Bt50.2bn this year from Bt6.6bn in 2021, a four-year high, we will closely monitor its financial status and cash flow since current DE ratio is 1.9x with a ~Bt5bn debenture due in 2H22. SIRI is planning to roll over the whole amount as cost of debt is lower or may pay a portion off.

Maintain Neutral with TP of Bt1.42. We keep our tactical call of Neutral, with a wait and see tag on the achievement of its presales and new launches: since 2H22 new launches are to account for 54% of the year's, delays may bring downside to our forecast. We will also keep an eye on its financial status and cash flow. Our TP is Bt1.42 based on 2022 PE of 8.25x (+0.55D).

Futures and Options trading carry a high level of risk with the potential for substantial losses, and are not suitable for all persons. Before deciding to trade Futures and Options, you should carefully consider your financial position, investment objectives, level of experience, and risk appetite if Futures and Options trading are appropriate. The possibility exists that you could sustain a loss of some or all of your initial investment. You should be aware of all the risks associated with Futures and Options trading, and you are advised to rely on your own judgment while making investment decision and/or should seek advice from professional investment advisor if you have any doubts.

This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of SCBS.
