

Support - Resistances

1605/1595 – 1625/1635

Market today

“Concerns over a big jump in rate weighing on market mood.”

The SET is expected to fall further on concerns the Fed will bump up rate rapidly at its Sep 20-21 meeting, as more investors expect the FOMC to end up stepping policy interest rate up 75 bps from the previous expectation of 50 bps. Technical signals have turned negative. We assign supports at 1,605 and 1,595; resistances at 1,625-1,635

Today's highlights

- FedWatch Tool shows the possibility of a 75 bps hike at Sep's FOMC meeting is up to 54.5% and the possibility of a 50 bps hike has fallen to 45.5%.
- PBOC cut 1-year and 5-year LPR rate to 3.65% and 4.30% after many homebuyers requested a break on their loan payments.
- Saudi Arabia said OPEC+ may cut oil production if a nuclear agreement is reached with Iran and sanctions on Iran's oil exports are removed.
- Gazprom, Russia's state-owned energy company, has said a key natural gas pipeline to Europe will shut down for three days, Aug 31 – Sep 2, to undergo “routine maintenance”, deepening the energy standoff with Europe.
- The Finance Ministry has told the SEC to closely monitor cryptocurrency mining firms after the Crime Suppression Division launched an investigation into suspected stock manipulation by ten SET-listed cryptocurrency firms.
- PTT is setting up an EV factory which expected to complete in 1Q24. It plans to produce 50,000 units/year in the first phase of production. It plans to expand EV charging stations to 1,300 stations this year.
- AOT expects an earnings turnaround in FY2023 followed by a new high in FY2024 on the assumption that China eases its restrictions on international travel for its citizens and the global situation returns to normal.
- Watch: On Aug 24, see if the Constitutional Court accepts a petition filed by the opposition for a ruling on the legal tenure of PM Prayut Chan-o-cha.

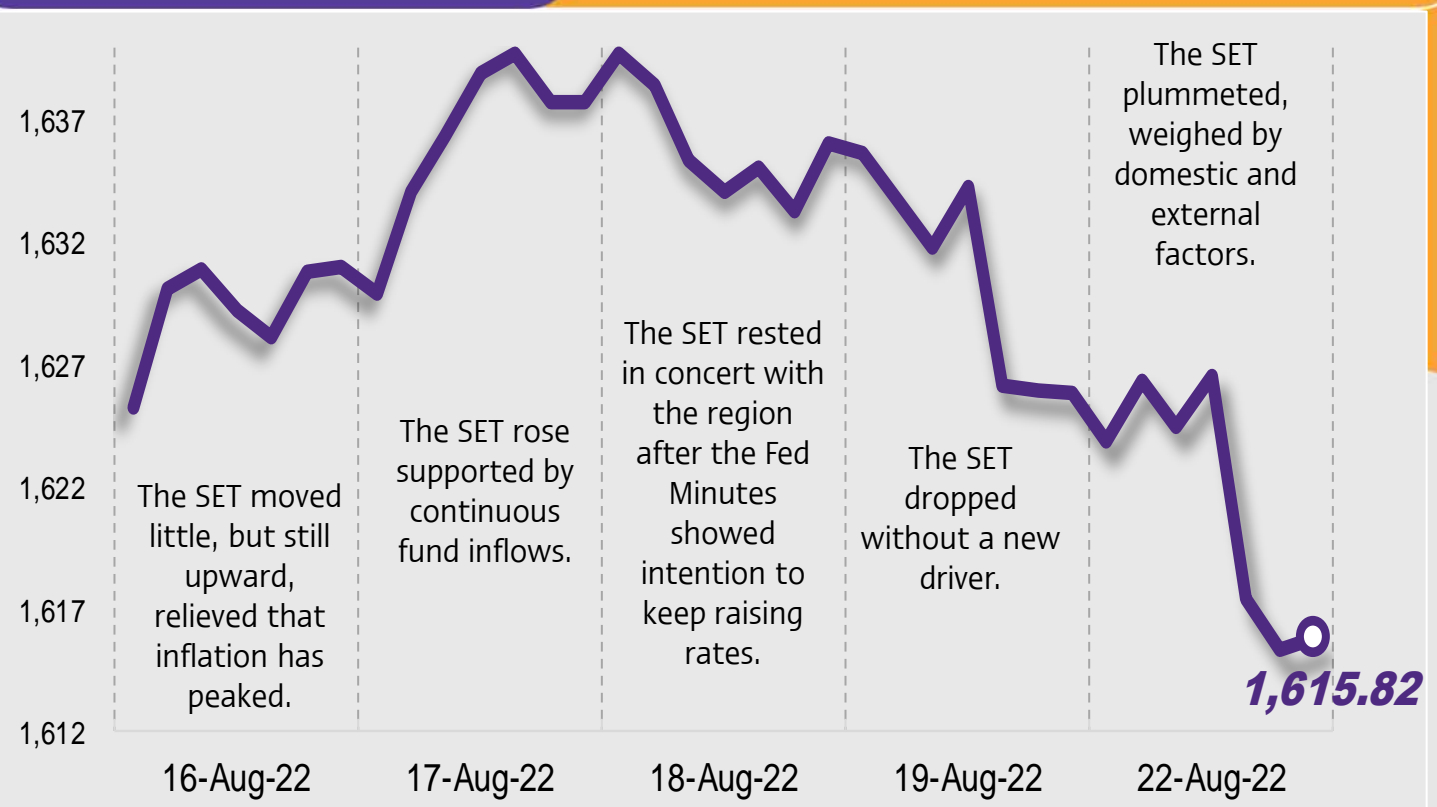

Strategy today

Although inflation seems to have passed peak, we now see clearer evidence of an economic slowing that will sour the market mood, so our recommended strategy is “selective buy” in good quality assets.

See the end of this report for disclaimer

Support - Resistances

1605/1595 – 1625/1635

Trading today

Weekly portfolio: We believe the market has already factored in the slowing in inflation but investors must be wary about an economic slowdown. We recommend investing in good quality stocks with specific positive drivers:

- 1) Big-cap stocks that benefit from fund inflow and whose valuations are not high – KBANK, BDMS, ADVANC and IVL;
- 2) Stocks that earnings for 3Q22 are expected to grow both YoY and QoQ – CPALL, SCGP and CENTEL;
- 3) Stocks whose 2H22 operations are poised to do well and offer an interim dividend between Aug–Sept – PTT (XD not yet announced), INTUCH (Aug 24) and LH (Aug 25).

Daily focus

KTB: is recommended for the interest rate upcycle and rising inflation theme. Share price is still undervalued while 2H22 performance is expected to grow YoY, backed by higher NII, lower provisions and opex. In 2022, earnings are expected to grow 40%YoY, the highest among big banks, and asset risk is lower than other banks.

BDMS: is our top pick in the Healthcare sector. We expect earnings to trend up with YoY growth continuing in 2H22, with 43% core earnings growth to Bt11bn in 2022, moving above pre-COVID-19 level, underwritten by strong non-COVID-19 and international patient services that will offset fading COVID-19 services.

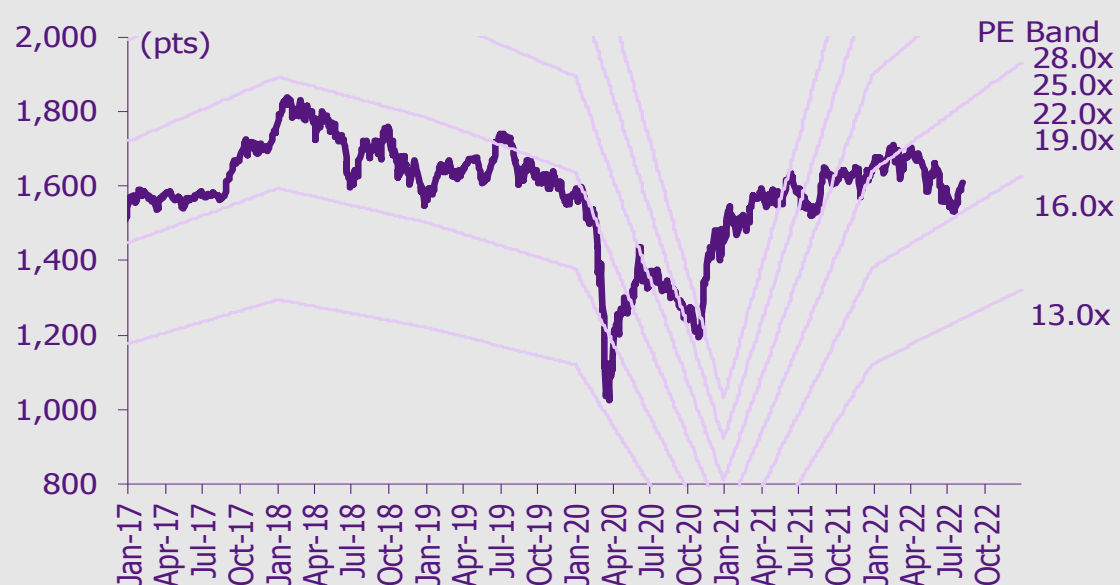

Today's reports

KTB – Top pick for rate hike and inflation cycle

What to watch

Date	Event
22 Aug	Economic release: JP/EU – Flash manufacturing and services PMI for Aug
23 Aug	Economic release: US – Flash manufacturing and services PMI for Aug, EU – Consumer confidence for Aug
24 Aug	Economic release: US – Durable and core durable goods orders for Jul, crude oil inventories
25 Aug	Economic release: US – Prelim GDP for 2Q22, unemployment claims Event: Jackson Hole Symposium
26 Aug	Economic release: US – Core PCE price index and personal spending for Jul Event: Jackson Hole Symposium
