Solid sales growth with potentially lower cost

Sector SSS in 1Q23TD is up for the sixth quarter with mid single-digit growth YoY, headed to further growth YoY on better consumer sentiment as the country heads into a general election, more tourists, growing farm income and the absence of stimulus that excluded modern retailers. Signs of easing logistic and electricity costs are another positive. Picks are CPALL, MAKRO, and BJC.

SSS growth in 1Q23TD. SSS looks to have grown in mid-single digits YoY in 1Q23TD (vs +6.8% YoY in 1Q22 and 5.9% YoY in 4Q22) on better sentiment as seen in a rise in the Consumer Confidence Index (CCI) in February to a 36-month high on revived economic activity, Shop Dee Mee Kuen stimulus (tax deduction of up to Bt40,000 for purchases of goods or services January 1-February 15), better farm income and more tourists. In January, farm income grew for the eleventh month at 4% YoY and the number of foreign and Thai tourists grew to 2.1mn (vs 0.1mn in January 2022) and 22mn (+42% YoY), respectively.

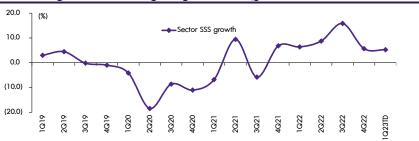

By company, in 1Q23TD, CRC is showing the best SSS growth, in the low teens YoY, followed by MAKRO (low teens YoY for the B2B unit and low single digits for the B2C unit), CPALL and HMPRO (high single digits YoY) and BJC (low single digit YoY). GLOBAL, however, is showing a contraction in SSS in the mid to high single digits YoY from lower steel prices.

SSS to grow further YoY. We expect sector SSS to continue to grow YoY from: 1) Better consumer sentiment from revived economic activities and a general election in 2Q23. 2) More tourists. In 2023, INVX expects international tourist arrivals of 25mn, up 124% YoY but still 37% below pre-pandemic level, and SCB EIC expects Thai tourists to reach 227mn, up 12% YoY, close to pre-pandemic level. Government tourism promotion measures under We Travel Together Phase 5 from March 7-April 30 will encourage more local tourism in the near term. 3) Growth in farm income. In 2023, SCB EIC expects farm income to grow 1.3% YoY with a 3% rise in farm production from good rainfall and dam water levels offsetting the 1.5% drop in prices related to global-linked commodities rubber and palm oil. 4) No government stimulus excluding modern trade, i.e., Khon La Khrueng, phase 4 (Feb-Apr 2022) and phase 5 (Sep-Oct 2022), worth Bt56bn.

Logistics and electricity costs passed peak. The Oil Fuel Fund Office (OFFO) announced this year's third cut in its price cap on diesel of Bt0.5/litre effective Mar 24. This gives a new retail price of Bt33.5/litre, down 4% from recent peak in Jan but still up 12% YoY. The Energy Regulatory Commission (ERC) is gathering public opinion on its proposal for a new power tariff rate from Bt5.33 per kilowatt-hour (unit) for businesses in January to April to three new options at Bt4.77/unit (-11% from Jan-Apr), Bt4.84/unit (-9%) and Bt6.72/unit (+26%) from May to August. With lower natural gas cost, lower tariff rates are more likely. Our sensitivity analysis suggests a 10% cut electricity rate will add 3% to sector earnings (6% to CPALL, 4% to MAKRO and BJC, 3% to CRC, and 1% to HMPRO and GLOBAL).

Top picks. Our study shows SETCOMM outperformed the SET by 4% for the three months and 1% for the month prior to an election, and 2% for the month and 8% for the three months post-election in 2001-19. We like CPALL, MAKRO and BJC as exhibiting the sector's best growth in 2023 on revived sales and margin and key gainers from easing costs. Key risks are changes in purchasing power, inflation-led rise in costs and higher interest rate.

Sector SSS has grown in mid single digits YoY in 1Q23TD

4Q22 earnings recap. In 4Q22, the sector's core earnings grew 8% YoY, backed by revived SSS growth of 5.9% YoY on economic and tourist recovery and partly off last year's low base from measures to control COVID-19 (i.e., night curfew in Bangkok lifted at end-Oct 2021 and nationwide at end-Nov 2021) and continued store expansion (the number of new stores grew 2% YoY) that outpaced EBIT margin contraction (-30bps YoY), on a lower gross margin from more low-margin sales and higher SG&A to sales.

By company, BJC had the sector's best growth (+22% YoY), from better sales and rental income plus lower effective tax rate, followed by CRC (+22% YoY, higher sales and margin), CPALL (+9% YoY, better sales and margin in in the CVS unit sufficient to offset the lower contribution from MAKRO after the change in shareholding) and MAKRO (+5% YoY, better sales in the B2B unit). HMPRO and GLOBAL reported earnings contractions, HMPRO shrinking 7% YoY on lower gross margin and higher SG&A/sales and MAKRO down 11% YoY on lower sales and margin from lower steel prices.

1Q23 earnings outlook. We expect YoY growth in the sector's 1Q23 core earnings, underwritten by SSS growth (up in the mid single digits YoY in 1Q23TD), continued store expansion amid stable EBIT margin (better gross margin from more favorable product mix offsetting higher SG&A/sales) but down QoQ from seasonality.

2023 earnings outlook. In 2023, we expect sector core earnings growth of 23% YoY, assuming 3.4% YoY growth in SSS, continued store expansion (5.7% growth in store numbers) and a 40bps YoY rise in EBIT margin from a more favorable sales mix on a better economy and more tourists, higher rental income and better control on SG&A/sales.

Explanations

Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of July 7, 2022) are categorised into: companies that have declared their intention to join CAC, and companies certified by CAC.
