More bullish margin guidance

BDMS' 3-year target (2024-26) of 10% p.a. revenue growth and 25% EBITDA margin suggests better operations; additionally, it is more bullish on EBITDA margin vs. 23-24% in its previous 3-year plan (2023-25). We believe it is likely to achieve the margin expansion given its pricing power and solid earnings quality. We revise up our 2024F core earnings and now forecast 13% growth to Bt16bn. Over the past month, share price is up 4%, beating the SET's drop of 2%, but valuation is still undemanding at 29x 2024PE (-2SD). In our view, its earnings quality supports a further share price increase. We maintain our 3-month tactical call of Outperform with end-2024 DCF TP of Bt36/share (up from Bt35/share). BDMS is a top pick in the Healthcare Service sector.

More bullish on margin. BDMS targets 10% revenue growth with EBITDA margin of 25% over the next three years (2024-26). The revenue growth is unchanged from its previous 3-year (2023-25) guidance but the EBITDA margin is more bullish than the 23-24% in that plan. In 2024, it targets 10-12% revenue growth with 24-25% EBITDA margin (from 24.4% in 2023). On the revenue side, it expects to see both volume and revenue per patient grow via increasing medical capability at the hospitals classified as a Center of Excellence (COE), enlarging the private insurance segment (36% of 2023 revenue to ~40% in the long-term), growing social security scheme services (SC, 2% of revenue) and improving international patient services (27% of 2023 revenue). On the margin side, improvement will be fueled by higher intensity at COEs and better asset utilization from higher bed occupancy rate. Revenue momentum is strong so far this year at ~11% YoY in January-February, driven by international patient services, up ~15% YoY overall: from China +43% YoY, the Middle East +20% YoY, Europe +19% YoY and CLMV +1% YoY.

Earnings raised to 13% core earnings growth in 2024. We raise core earnings forecasts by 4% each in 2024 and 2025 as we raise our revenue growth assumption to 8% in 2024 (from 6%, still more conservative than its target) and maintain our 2024 EBITDA margin at 24.9% (high range of its target as we are confident in its pricing power and believe it will achieve better asset utilization). We forecast core earnings growth of 13% YoY to Bt16bn in 2024. Our end-2024 DCF TP rises to Bt36/share from Bt35/share (WACC at 7.1% and LT growth at 3%).

Risks. We are keeping an eye on the global economic slowdown and geopolitical risk that may cause clients to delay elective medical care and make it inconvenient for international patients to come to Thailand for treatment. We see ESG risk as patient safety (S): BDMS has adopted a variety of quality assurance systems to provide continuous patient care.

Value proposition

BDMS is Thailand's largest private hospital operator (57 hospitals with over 8,500 beds) and is one of the top five private hospital operators in the world by market capitalization. BDMS is placing itself to get in on rising demand for quality healthcare and to provide the entire spectrum of healthcare service, from preventive (wellness business) to curative and rehabilitative.

Business outlook

In 2024, we estimate BDMS core earnings at Bt16bn, growing 13%, based on 8% revenue growth and a wider EBITDA margin (24.9% from 24.4% in 2023) backed by growing international patient services, rising revenue from Centers of Excellence (providing a high EBITDA margin) and better asset utilization through enlarging the private insurance segment and increasing patients covered by the social security scheme.

Private hospitals are focusing on the EEC area (Chonburi, Rayong and Chachoengsao), where demand for healthcare is increasing in tandem with economic activities. BDMS has the strongest presence in EEC with 10 hospitals and is expanding. In Chonburi, BDMS plans to add more beds at *Bangkok Hospital Pattaya* and *Jomtien Hospital* (from 400 to ~600 beds). It plans to open a new hospital, *Phayathai Bowin Hospital*, in 2025. This will be a 220-bed greenfield hospital with the first phase offering 59 beds. In Rayong, BDMS plans to bring beds up to ~600 from 374.

Besides the bed expansion, BDMS has actively expanded into non-hospital businesses including digital health services, setting up the Genomic Center and investing in *BDMS Silver Wellness & Residence*, a mixed-use project (clinic, hotel and residential) for the wellness business. Although the non-hospital businesses are still small at 4-5% of revenue, BDMS sees opportunity for growth from broadening its scope of services and expects revenue from non-hospital businesses to reach 20% of revenue in the future.

Bullish views	Bearish views
1. Sound fundamentals, providing the entire spectrum of healthcare, from preventive (wellness business) to curative and rehabilitative. 2. Strong financial health	1. Concern about competition.

Key catalysts

Factor	Event	Impact	Comment
Near-term earnings outlook	1Q24F earnings momentum	+YoY and +QoQ	We expect core profit in 1Q24 to grow YoY with revenue growth as a key driver and grow QoQ due to seasonality.
Factors to be aware of in 2024	Potential growth in EEC	Positive	We are positive toward the health demand in EEC and because of the area's low bed supply, do not expect a significant impact from intense competition. BDMS has the strongest presence in EEC with 10 hospitals and is expanding.
Factors to be aware of in 2024	Global economic slowdown and geopolitical risk	Negative	Revenue from international patient services has recovered to above pre-COVID-19 level, accounting for 27% of 2023's revenue. We are keeping an eye on the global economic slowdown and geopolitical risk that may cause delays in elective medical care and make it inconvenient for international patients to seek treatment abroad.

Environmental Issue (E)

- BDMS intends to accomplish net zero emissions in 2050. BDMS has adopted circular economy principles on energy and resources management. In addition, BDMS plans to improve energy efficiency and ensure that the least impact by business activities on the environment in the design process, management, clean energy and high-efficiency equipment and technology.
- BDMS has set direction and sustainability goals in 2050 to increase the recycling of non-hazardous waste to 50% while promoting plastic container recycling and the use of biodegradable containers.
- BDMS targets reducing water consumption per baht revenue vs. 2022, its base year. It is determined to improve water management throughout the supply chain by constantly developing the process, technology, innovation and fundamental structure.

Governance Issue (G)

- BDMS Board of Directors establishes the corporate governance policy for executives, committees and employees as operational guidelines.
- BDMS appointed a standardization and compliance committee to ensure all subsidiary hospitals operate in line with quality policies, patient safety plan and corporate strategy.
- BDMS has a patient experience management working team to systematically manage customer relations. The satisfaction survey rates in 2022 increased or presented at 92% vs target of 86%, putting its score in the 95th percentile compared with 4,442 hospitals in the USA as reported by HCAHPS Score.
- As of December 31, 2022, there were 17 directors in total, consisting of 8 executive directors (47.06% of all directors), 2 non-executive directors (11.76% percent of all directors) and 7 independent directors (41.18% percent of all directors). We view the structure is appropriate as independent directors are not less than one-third of the Board of Director and
- The chairman is an independent director.
- Major shareholders control ~20% of total issued and paid-up shares.

Social Issue (S)

- BDMS enforces policies regarding staff health, safety and biohazard post-exposure management to ensure the work readiness of employees and contractors in the hospitals.
- BDMS organizes training and development for clinical and non-clinical employees, including newly-recruited, contracted and part-time employees.
- BDMS assigns related departments to collaborate in building community engagement through data surveys and understanding the community's expectations. In 2022, it put out 804 initiatives on preventive healthcare and health literacy for communities in Thailand.
- We see ESG risk for healthcare service sector as patient safety and BDMS has adopted a variety of quality assurance systems to provide continuous patient care.
