1Q24: Reflected higher demand QoQ

GPSC posted net profit of Bt864mn in 1Q24 (in line with consensus), down 22.7% YoY due to lower share of profit from its JVs but up 80.9% QoQ off a 36% QoQ growth in SPP gross profit thanks to a 6% increase in electricity sales volume and a 7% decline in coal cost to Bt142.7/ton. We expect earnings to rise gradually on the back of lower gas cost. We cut our 2024F by 10% and 2025F by 8% to reflect lower IPP performance than expected. We maintain our 3-month tactical rating of Neutral with a new target price of Bt60 (from Bt70) based on DCF valuation.

Operating profit for IPP fell YoY and QoQ. Gross profit for the IPP segment (26% of total gross profit) fell 14% YoY and 11% QoQ to Bt1.3bn in 1Q24 due to an 11-day unplanned shutdown of the GHECO-One power plant in January and lower margin at the Sriracha power plant after EGAT's dispatch instruction to use more natural gas, which has a lower margin than diesel fuel.

SPP earnings up YoY and QoQ. SPP profit (72.0% of total gross profit) grew 14% YoY off a better gross margin of 22% in 1Q24 vs. 15% in 1Q23, as gas cost (-28% YoY) of Bt362/mmBTU declined at a faster pace than electricity tariff rate (-25%) of Bt3.67/kWh in 1Q24. Note that average Ft rate rose to Bt0.3972/kWh in 1Q24 from Bt0.2048/kWh in 4Q23. SPP profit soared 36% QoQ on a 6% increase in electricity sales volume and a 7% decline in coal cost to Bt142.7/ton. These positives were partially offset by a drop in steam sales volume of 1% YoY and 7% QoQ to 2,982k tons as petrochemical customers shuttered their manufacturing plants.

Share of profit from associates & JVs declined YoY and QoQ. The share of profit from associates & JVs turned to a loss of Bt12mn in 1Q24 vs. a profit of Bt113mn in 1Q23 and a profit of Bt223mn in 4Q23, mainly due to lower contribution from Xayaburi hydropower plant (25% interest) in Laos caused by lower water flow in 1Q24 and FX loss (Taiwan dollar depreciation against the US dollar) at the offshore wind power project (CFXD) in Taiwan, which brought contribution to a loss of Bt93mn in 1Q24 (vs. a loss of Bt42mn in 1Q23 and a profit of Bt213mn in 4Q23); a partial offset was provided by better contribution from the solar project in India (Avaada Energy, AEPL, 42.93% interest) of Bt130mn (+2% YoY, +814% QoQ) in 1Q24.

2024 outlook. 1Q24 core profit accounted for 18.8% of our new full-year forecast, but we expect core earnings to continue benefiting from potential lower gas cost at SPPs, which accounted for 33% of total equity operating power capacity but 72% of total gross profit in 1Q24. 2Q24 core earnings are expected to improve QoQ on the back of a stable Ft rate, while gas costs are expected to decline due to higher gas flow in the Gulf of Thailand. We take a neutral stance on the medium-term outlook for SPP margin as the government's agenda is to reduce the country's electrical tariff to below Bt4.0/kWh from the current Bt4.18/kWh. For overseas operations, we expect a higher contribution from AEPL, which plans to start up 800MW in renewable projects in India (1Q24F: 200MW) in 2024 (343MWe for GPSC) plus full commercial operations of Taiwan's offshore wind power project (149MWe) in 3Q24.

Earnings forecast revised down. We cut our net profit forecast for 2024 by 10% and 2025 by 8% to reflect lower IPP performance than anticipated. We also cut our DCF-based TP (end-2024) to Bt60 from Bt70.

Key risks: Higher than expected fuel cost, delays in Ft adjustment, lower return on new investments and regulatory changes regarding GHG emissions. Key ESG risk are the environmental impact from its exposure to fossil fuels.

2023 Sustainability / 2022 ESG Score

SET ESG Ratings	AA
-----------------	----

ESG Bloomberg Rank in the sector

ESG Score Rank	5/67
Environmental Score Rank	1/67
Social Score Rank	8/67
Governance Score Rank	8/67

ESG comment

GPSC's ESG score in 2022 was above sector average, with an outstanding environmental score and satisfactory social and governance score. Key ESG risk is the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

Our view on ESG

We view that GPSC provides concrete targets on environmental and social issues with a committed timeline and actual performance relative to its targets. We view its management and governance as satisfactory, reflecting management's expertise and experience in the business, with a diverse board of directors and transparency with stakeholders. Key ESG risks are the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

ESG Disclosure Score

Bloomberg ESG Score	73.20 (2022)
Rank in Sector	5/67

CG Rating	DJSI	SETESG	SET ESG Ratings
GPSC	5	Yes	Yes
			AA

Environmental Issue (E)

- GPSC has commitments to lessen CO₂ intensity by 35% by 2030, to achieve carbon neutrality by 2050, and to achieve Net Zero GHG emissions by 2060. The company also commits to raising the proportion of renewables to 50% by 2030. This could be achieved earlier than plan with the current proportion of 35%.
- GPSC enrolled in the Thailand Voluntary Emission Reduction Program (T-VER) by developing a solar farm project in Wangchan Valley and an RFD project in Rayong, which are expected to lower GHG emissions by a total of 20,993 tCO₂e, with no water was disposed to public sources.
- GPSC continues to invest in the battery business and other innovations to support the energy transition from fossil fuel to renewable power. The battery business will accommodate energy storage systems, batteries for electric vehicles. Other new S-curve businesses include digital energy businesses, hydrogen energy business, and carbon capture, utilization and storage.
- We GPSC is in the leading position compared with peers on the air quality and sustainable products.

Governance Issue (G)

- GPSC's board of directors consists of 14 directors, 13 non-executive directors (92.86% of the entire Board), 6 independent directors, which exceeds half of the Board (42.86% of the entire Board), and an executive director. These include three female directors (21.43% of the entire Board).
- The company was rated "Excellent" (5 stars) by the Thai Institute of Directors for the sixth consecutive year in 2021.
- We view GPSC's management and governance as satisfactory, reflecting in part management's ability to plan and execute large projects, its experience and expertise, its transparency with stakeholders, and its independent board of directors. GPSC's ESG score for governance still leads its peers.

Social Issue (S)

- GPSC continues to promote occupational health and safety in the workplace to ensure employee well-being with Zero Lost Time Injury Frequency Rate (LTIFR) in 2022.
- Community satisfaction rate increased to 78% in 2022, vs. target of >75% with no report of human rights violations complaints.
- GPSC manages strategic manpower planning and improves organizational structure and processes arising from mergers and acquisitions to support its rapid growth. In 2022, employee engagement rate was 69% and turnover rate of 5.76%, up from 3.16% in 2021.
- GPSC has adopted a 'Shift to Customer-Centric Solutions' Strategy, to accommodate customer demands through modernization of services, such as replacement of fossil fuel-based power generators with small-scale cleaner renewable-based power generating units. The customer satisfaction rate is 95% in 2022.
- GPSC is also a leading position in social issue compared with peers on the occupational health and safety management
