1Q24: Net profit hurt by FX loss

1Q24 net profit was Bt3.5bn, down 9.1% YoY and 26.5% QoQ on FX loss of Bt593mn (vs FX gain of Bt270mn in 1Q23 and Bt625mn in 4Q23) and lower YoY and QoQ contribution from associates and JVs due to the price linkage between gas prices and tariff for Jackson (US gas power plant) and the effect of lower wind speed on GULF-GUNKUL Corp (GKC). Core profit remained solid at Bt4.2bn, up 13.2% YoY on the booking of a full quarter contribution from GPD units 1&2 (startup Mar 2023 and Oct 2023), with core profit slipping 1.6% QoQ on lower contribution from associates and JVs. Outlook is better for the rest of the year, backed by new capacity additions. We stay Outperform with an end-2024 DCF-based TP of Bt63/share.

Gas-fired power plant sales volume up YoY and QoQ on new IPP unit. Revenue from gas-fired power plants (89.3% of revenue) rose 18.7% YoY and 15.9% QoQ on greater IPP operating capacity after the startup of the first two units of Gulf Pluak Daeng (GPD) unit 2 in Mar 2023 and Oct 2023 with total capacity of 927.5MWe.

Revenue from renewable energy boosted by new project. Revenue from renewable power plants (2.7% of revenue) shot up 59.5% YoY, led by Vietnam after Mekong Wind Power (310MW) came on line in full in 3Q23, plus higher revenue from GULF1 on the gradual startup of solar rooftop projects for industrial customers. Renewable energy revenue rose 16.6% QoQ due to the Gulf Chana Green (GCG) biomass project, with revenue rising with Ft.

Profit sharing from associates and JVs was down 14.4% YoY and 54.5% QoQ due to a huge FX loss of Bt567mn for GJP and Bt121mn for Luang Prabang Power (LPCL) in 1Q24. Removing this shows core profit contribution from associates and JVs of Bt2.6bn, up 29.5% YoY (higher contribution from INTUCH and PTT NGD) but down 17.3% QoQ (lower earnings from Jackson and GKC).

2024 outlook remains solid. We expect core profit to reach a record high in 2Q24, with growth continuing throughout the year, driven by added capacity via several upcoming projects: a) a new IPP, GPD unit 3 (capacity 662.5MW, startup March 2024) and GPD unit 4 (662.5MW, to start up October 2024), and b) new IPP at Hin Kong Power (HKP) unit 1 (capacity 770MW, startup March 2024). We are also positive about two upcoming events for power projects in Thailand: bidding for the second phase of 3.6GW renewable power and the new PDP2024, which is expected to add 30-40MW to renewable capacity to meet future demand for green power. Note that Gulf's current renewable capacity accounts for only 10% of its total electricity capacity against its goal of 40% by 2035. GULF trades at only 24.3x 2024 PE or -1.5 SD of its 5-year historical PE mean. We remain positive on the solidity of GULF's earnings and our end-2024 DCF-based TP of Bt63/share.

Key risks: 1) Lower than expected investment return on new projects, but its excellent track record in bringing projects in on time and on budget minimizes this risk, 2) SPP electricity and steam sales to industrial customers, exposed to a poor economy and fuel costs, and weather-related risk at renewable power projects. Key ESG risk: the environmental impact from its exposure to fossil fuels.

2023 Sustainability / 2022 ESG Score

SET ESG Ratings	AA
-----------------	----

ESG Bloomberg Rank in the sector

ESG Score Rank	12/67
Environmental Score Rank	5/67
Social Score Rank	7/67
Governance Score Rank	24/67

ESG comment

GULF's ESG score rank in 2022 was acceptable although the ESG disclosure score is below the sector average, based on Bloomberg assessment. Key ESG risk are the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

Our view on ESG

We view that GULF provides concrete targets on environmental and social issues with a committed timeline and actual performance relative to its targets. We view its management and governance as satisfactory, reflecting management's expertise and experience in the business, with a diverse board of directors and transparency with stakeholders. Key ESG risk are the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

Environmental Issue (E)

- GULF aims to increase the proportion of renewables in its generation mix to ≥40% of total gross installed capacity by 2035. Currently, it has over 800MW committed renewable capacity.
- GULF has set a target to reduce its carbon intensity by 25% within 2030 from the base year of 2019 to align with the government's commitment to carbon neutrality and net zero GHG emissions.
- GULF's innovation in operations and several efficiency improvement projects have helped it reduce fuel consumption and carbon intensity, resulting in >Bt300mn operational cost savings.
- GULF was able to maintain its zero waste to landfill target since 2020 and in 2022 was also able to achieve its zero-waste incineration target.
- We view that the environmental issue to be materialize factor for GULF and GULF is in the lagging position compared with peers on the climate exposure, GHG emission management and sustainable products.

Governance Issue (G)

- GULF's board of directors consists of 12 directors, 8 non-executive directors (66.67% of the entire Board), 7 independent directors (58.33% of the entire Board), and an executive director. This includes four female members (33.33% of the entire board).
- GULF has been rated "Excellent" (5 stars) by the Thai Institute of Directors in 2022.
- We view GULF's management and governance as satisfactory, reflecting management's expertise and experience in the utilities sector, its transparency with stakeholders, and its independent board of directors but the governance score also lagging its peers from the executive compensation and shareholder rights.

Social Issue (S)

- GULF ensures that its employees are provided with a safe and healthy work environment. It achieved its Zero Accident target, having a lost-time injury frequency rate (LTIFR) of zero for both employees and contractors.
- The employee engagement rate was 77% and the satisfaction rate was 88%. GULF reported that it has not received any complaints regarding human rights violations. Its assessments have also determined that internal controls and human rights risk mitigation plans are adequate and appropriate at all sites.
- GULF has established a strategy to support local communities across the country under the "IMPACT" framework to create positive impacts and elevate quality of life for sustainable growth and development.
- GULF is also a below average position in social issue compared with peers on the operational risk management, access, ethics and compliance issues.
