Raised 2024F NIM assuming no policy rate cut

We raised our NIM forecast slightly for large banks but cut it for TISCO and KKP after changing our assumption to no cut this year (policy rate at 2.5%) from a 50 bps cut (to 2%). This raises our sector 2024 earnings by 4% and we now expect 5% growth in 2024. We keep BBL and KTB as sector picks, as valuations are attractive and asset quality risk lower than peers.

Changed policy rate assumption. The window for the BoT to ease policy this year has narrowed and we now expect no policy rate cut in 2024 after earlier expecting a 50bps cut. Behind the narrowed window: 1) a potential recovery in GDP from 2Q24 onward on an acceleration in government budget disbursement and 2) a rise in inflation driven by removal of some diesel subsidies and base effect. For the time being, we assume the policy rate will be on hold at 2.5%.

Raised 2024F NIM for large banks. The change in policy rate assumption raises our 2024F NIM by 3-8 bps for large banks but cuts this by 5-8 bps for TISCO and KKP. We expect a QoQ fall in NIM in 2Q24 as a result of repricing deposit cost and a 25 cut bps cut in MRR for six months to help lower borrowing cost for vulnerable groups and small SMEs (effective in May). In 2H24, we expect NIM to stabilize.

Raised earnings forecast. The change in our policy rate assumptions raises our 2024 sector earnings forecast by 4%. For large banks, we raise 2024F earnings by 2-5%, whereas we cut earnings by 3% for KKP and 5% for TISCO. We now expect the sector's earnings to rise 5% in 2024, underpinned by 3% loan growth, stable NIM, a slight ease in credit cost, flatish non-NII and stable cost to income ratio.

Source: Banks and InnovestX Research

Keep TPs unchanged. We do not change our TPs pending a review post 2Q24 results. We keep BBL and KTB as sector picks, seeing their valuations as attractive and asset quality risk lower than for peers.

Key risks: 1) Asset quality risk from uneven economic recovery, global economic slowdown and geopolitical risk; 2) Slower-than-expected loan growth from low loan demand and high competition; 3) ESG risk on market conduct and regulatory risk.

Explanations

Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of November 1, 2023) are categorised into: companies that have declared their intention to join CAC, and companies certified by CAC.
