2Q24: Record high, as expected

In line with estimates, 2Q24 net profit was Bt4.7bn to a record high, up 64.3% YoY and 35.5% QoQ, driven by contribution from associates and JVs and full-quarter operations of GPD units 2 and 3. Profit is expected to continue to grow over the rest of the year, driven by new capacity additions: GPD unit 4 (662.5MW, startup October 2024) and several solar projects under development. Outperform with end-2024 DCF-based TP of Bt63/share.

Record-high quarter in 2Q24 net profit, in line with consensus, driven by a 70.0% QoQ and 73.3% YoY increase in contribution from associates and JVs: 1) a rise of 5.6% QoQ and 20.4% YoY from INTUCH, which benefited from higher profit at ADVANC, 2) better profit at GJP without scheduled maintenance, 3) the full-quarter recognition of the COD of HKP unit 1 (377 MWe), 4) improved performance at PTT NGD driven by lower gas costs and higher selling prices in line with fuel oil prices, and 5) a full-quarter of GPD unit 3 (464 MWe) revenue.

2H24 outlook remains solid. We expect core profit to continue grow through the rest of the year, driven by a 2,700MW increase in capacity to 15,167MW in 2024 via several projects: 1) a full contribution of new IPP, GPD unit 3 (capacity 662.5 MW, startup October 2024) and GPD unit 4 (662.5MW, startup October 2024), 2) a full contribution from the new IPP at Hin Kong Power (HKP) unit 1 (capacity 770MW, startup March 2024) and 3) the planned COD of its solar, solar + battery energy storage system (BESS) and solar rooftop projects adding 605MW in 2H24. We are also positive about the upcoming bidding for two power projects in Thailand: the second phase of 3.6GW renewable power and the new PDP2024, which is expected to add new 30-40GW of renewable capacity to meet future demand for green power. Note that Gulf's current renewable capacity accounts for only 10% of its total electricity capacity, with a goal to reach 40% by 2035. Also, we are also positive on the merger deal between GULF and INTUCH, which is scheduled to be approved by shareholders meetings (EGM) on Oct 3, 2024.

Attractive valuation. GULF trades at only 27.8x 2024 PE or -1.0 SD of its 5-year historical PE mean. As a result, we remain positive on the solidity of GULF's earnings for the next 1-2 years. We maintain our Outperform rating with an end-2024 DCF-based TP of Bt63/share.

Key risks: 1) Lower than expected investment return on new projects, but GULF's excellent track record in bringing projects in on time and on budget minimizes this risk, 2) SPP electricity and steam sales to industrial customers, exposed to a poor economy and fuel costs, and weather-related risk at renewable power projects. Key ESG risk are the environmental impact from its exposure to fossil fuels.

2023 Sustainability / 2022 ESG Score

SET ESG Ratings	AA
-----------------	----

ESG Bloomberg Rank in the sector

ESG Score Rank	12/67
Environmental Score Rank	5/67
Social Score Rank	7/67
Governance Score Rank	24/67

ESG comment

GULF's ESG score rank in 2022 was acceptable although the ESG disclosure score is below the sector average, based on Bloomberg assessment. Key ESG risk are the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

Our view on ESG

We view that GULF provides concrete targets on environmental and social issues with a committed timeline and actual performance relative to its targets. We view its management and governance as satisfactory, reflecting management's expertise and experience in the business, with a diverse board of directors and transparency with stakeholders. Key ESG risks are the environmental impact from its exposure to fossil fuels, energy management, high greenhouse gas emission, and nearby community impact.

Environmental Issue (E)

- GULF aims to increase the proportion of renewables in its generation mix to ≥40% of total gross installed capacity by 2035. Currently, it has over 800MW committed renewable capacity.
- GULF has set a target to reduce its carbon intensity by 25% within 2030 from the base year of 2019 to align with the government's commitment to carbon neutrality and net zero GHG emissions.
- GULF's innovation in operations and several efficiency improvement projects have helped it reduce fuel consumption and carbon intensity, resulting in >Bt300mn operational cost savings.
- GULF was able to maintain its zero waste to landfill target since 2020 and in 2022 was also able to achieve its zero-waste incineration target.
- We view that the environmental issue to be materialize factor for GULF and GULF is in the lagging position compared with peers on the climate exposure, GHG emission management and sustainable products.

Governance Issue (G)

- GULF's board of directors consists of 12 directors, 8 non-executive directors (66.67% of the entire Board), 7 independent directors (58.33% of the entire Board), and an executive director. This includes four female members (33.33% of the entire board).
- GULF has been rated "Excellent" (5 stars) by the Thai Institute of Directors in 2022.
- We view GULF's management and governance as satisfactory, reflecting management's expertise and experience in the utilities sector, its transparency with stakeholders, and its independent board of directors but the governance score also lagging its peers from the executive compensation and shareholder rights.

Social Issue (S)

- GULF ensures that its employees are provided with a safe and healthy work environment. It achieved its Zero Accident target, having a lost-time injury frequency rate (LTIFR) of zero for both employees and contractors.
- The employee engagement rate was 77% and the satisfaction rate was 88%. GULF reported that it has not received any complaints regarding human rights violations. Its assessments have also determined that internal controls and human rights risk mitigation plans are adequate and appropriate at all sites.
- GULF has established a strategy to support local communities across the country under the "IMPACT" framework to create positive impacts and elevate quality of life for sustainable growth and development.
- GULF is also a below average position in social issue compared with peers on the operational risk management, access, ethics and compliance issues.
